

Modern Telephone Service for Grayling

To meet the present demands, and in anticipation of future needs, the Tri-County Telephone Company proposes to rebuild its entire telephone plant, construct a new building and install therein modern automatic telephone equipment, so that they may better serve the city of Grayling and surrounding territory.

In harmony with the views of the future, the Tri-County Telephone Company is proposing to furnish the most modern automatic telephone equipment, which, when installed, will be capable of rendering the best telephone service obtainable anywhere. The rate application for this new service is published elsewhere in this issue and is contingent upon the acceptance by the telephone customers of Grayling and the approval of the Michigan Public Utilities Commission.

Keeping ahead of the new developments in American life calls for a great expenditure in money. The Tri-County Telephone Company's outlay for new plant and service improvements for eight of their thirty-five exchanges is more than \$360,000.00. \$49,000.00 of this amount will be used for the Grayling improvement. New money for financing these projects will have to be borrowed and the Company has proposed rates which will allow them to earn the interest on the above amount.

The exchanges that the Company proposes to modernize at this time have not enjoyed first class service in the past due to obsolescence, and to the ever increasing line disturbances due to the extension of rural electrifications. These exchanges have also been operated at a considerable loss for years due to increased taxes, low rates, and excessive maintenance costs.

The Tri-County Telephone Company realizes that their customers desire, and should have, first class telephone service. Business firms using the telephone eliminate space and time. The far-flung parts of an organization, with its dealers and customers, are brought together by instant speech. The home, like the office, reaches out over an ever-widening circle of neighbors.

The automatic telephone is tireless and quick. It runs errands near and far, transacts business, keeps friendships alive. Telephones throughout the house save time and fatigue. They bring the comforts and conveniences of the office to the women in the homes.

This expansion program is part of the telephone ideal that anyone, anywhere, shall be able to talk quickly and at a reasonable cost with anyone, anywhere else. There is no "standing still" in the telephone industry.

RECREATION NOTES

All men and young men who are interested in the Recreation Basketball League this winter will meet at the school gym at 7:30 o'clock Wednesday evening, Nov. 9, for an organization meeting. A. G. Clough, Recreation Leader.

MRS. CONNINE CELEBRATES 80TH MILESTONE

Mrs. R. D. Connine celebrated her 80th birthday anniversary November 1st, and Sunday 32 members of her family, who included sisters, brothers, nephews and nieces of Traverse City came to spend the day with her. At noon 30 sat down for dinner at the Connine home.

Tuesday afternoon several of Mrs. Connine's close neighbors met at the home of Mrs. S. D. Dunham, and at lunch time a lovely birthday cake graced the lunch table, in her honor.

It was a very happy occasion and Mrs. Connine is extended congratulations and wishes for many happy returns of the day.

FORMER RESIDENT PASSED AWAY IN DEARBORN

Frank Smith, age 86 years, and the father of Howard Smith of this city, passed away in Dearborn on Oct. 24 following a long illness. Mr. Smith, who was born in Great Falls, N. Y., had been a resident of Grayling for a long number of years. Two years ago he left for Dearborn to make his home.

Funeral services were held Wednesday at the Clay Funeral Home with interment in Northview cemetery, Dearborn.

Surviving the deceased are five sons, Howard of Grayling; Jesse and Russell of Dearborn; George of Pontiac and Chester of Princeton, N. J., and one daughter Mrs. Ben Darroch of Dearborn.

Mr. and Mrs. Howard Smith and son George Roy were in attendance at the funeral.

LADIES AUXILIARY OF THE GOLF CLUB GIVE DANCING PARTY

The Golf Club house was the scene of a merry dancing party Tuesday evening. The Ladies Auxiliary planned the affair and eighty-six ladies and gentlemen responded to the invitation.

Woody Miller's Three Sharks furnished the music and they kept the dancers in a happy mood.

Mrs. Harry Connine acted as general chairman; Mrs. Wm. Hill as lunch chairman and Miss Jayne Keyport and Miss Georgianna Olson as music committee.

The party was such a success that a cry for more, more of these was heard from the crowd on their departure.

Several groups enjoyed pot-luck dinner before the party. Hosts included Mr. and Mrs. Frank Bond, Mr. and Mrs. Esbern Olson, Dr. and Mrs. C. G. Clippert, and Mr. and Mrs. Harold Cliff.

TO CORRECT A MISSTATEMENT

The Avalanche in its last issue made a misstatement in the discussion of the 3rd amendment that will have to be voted on at the election next Tuesday. The article advocated voting in favor of the proposal and at the final conclusion of the article it said VOTE NO. That was a mistake. If ratified this amendment will not permit of any money paid in for gasoline and weight taxes being used for anything but for highway purposes. If this money were to be put into the general fund of the state, it is easy to predict that our highways, which are one of our principal assets of Michigan, would suffer for want of finances. Let's keep Michigan Highways on the upgrade by voting YES on amendment 3.

MRS. DOUGLAS B. STIRLING

WELSH-STIRLING

At a simple but impressive service Miss Betty Jane Welsh, daughter of Mr. and Mrs. Fred R. Welsh, of this city became the bride of Douglas B. Stirling, son of Mr. and Mrs. Neil D. Stirling, of Saginaw, at Michelson Memorial Church Saturday afternoon at five-thirty o'clock with the Rev. H. W. Kuhlman officiating.

The bride, leaning on the arm of her father proceeding toward the altar, was lovely in a white velvet gown made on princess lines with shirred elbow-length sleeves finishing the fitted bodice and a modified train extending from the full skirt. A cap of gardenias, from which fell a floor-length veil, completed her costume. She carried a colonial bouquet of Johanna-Hill roses and white bebe chrysanthemums.

Miss Gail Welsh, sister of the bride, as maid of honor, wore a pale pink taffeta frock fashioned in the colonial design with hoop-skirt and fitted bodice. She wore a tiny half-hat banded with a wreath of pink velvet flowers. She also carried a colonial bouquet of pink rosebuds and bebe chrysanthemums.

The groom was attended by his brother, James Stirling, and ushers included Thomas Welsh, Fred Welsh, Jr., and Robert, brothers of the bride. Following the ceremony a wedding dinner was served at the residence. White roses guarded by white tapers making a beautiful centerpiece for the bride's table.

Mrs. Welsh chose for the occasion a gown of black velvet while Mrs. Stirling, mother of the groom, wore a du bonnet velvet model with matching jacket trimmed with Persian lamb.

Mr. and Mrs. Stirling left that evening, by motor, for Venice, Calif., where they will be at home after Nov. 10.

Guests at the nuptials included Mr. and Mrs. Stirling, Mr. and Mrs. Walter P. Davis, Jr., John Fraker, William Palmer, Miss Edna Pretzer, and Miss Dorothy Stiegemeier, all of Saginaw; Mr. and Mrs. Hugh Johnston, of Traverse City; Mr. and Mrs. Edward Johnston, of Clare; Miss Phyllis Stirling, of Battle Creek; Mrs. Thomas R. Welsh, of Reed City; Mr. and Mrs. Vane Patterson, of Saginaw; Mr. and Mrs. Bruce Stirling, of Flint; and Max Cavanaugh, of Detroit.

RED CROSS MEETING AND TEA

County chairman of the Red Cross, Mrs. C. G. Clippert, called a meeting of the Red Cross at her home Wednesday afternoon.

A large number of ladies were present and listened to Mr. Charles Moore who gave an appeal for clothing for the needy. Miss Margrethe Hemmingsen, secretary and treasurer of the organization, gave reports.

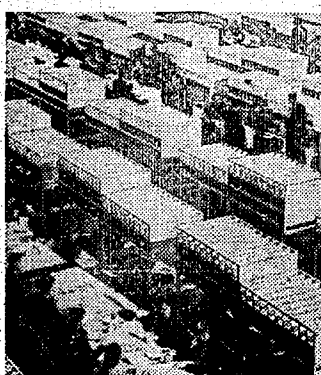

In next week's issue of the Avalanche there will be a report of the projects to be carried on by the Crawford County Chapter. Tea was served by the hostess, Mrs. A. J. Joseph, poured, with Miss Jayne Keyport and Miss Georgianna Olson assisting.

AMERICA VOTES

In every state but Maine, November 8 is election day; your chance to say "Yes" or "No" to the government.

Throughout the country, lines like the above form each election day as America exercises its franchise. Few citizens appreciate this right; too many complain about government and then do nothing about it. The above picture was taken at a New York polling place, where election machinery must be geared to accommodate a gigantic vote.

To tabulate New York's 2,000,000 votes, a special corps of canvassers require 15 days. But this is only for the official count. By midnight on election day, thanks to mechanical voting devices, New York can tell who is winning. Similarly, in national elections, trends can be determined a few hours after the polls close. Newspapers and press associations work all night at a frenzied pace, and by morning their readers know the outcome. A hundred years ago, national election results were not known for weeks.

Despite elaborate mechanism in larger cities, the bulk of America's votes are cast in small towns. Some voting precincts are so small that no polls close within a few hours after opening. Others complete their ballot in a few minutes, taking delight in being the first precinct to report.

Notice To Voters

There is a story afloat that should I be elected sheriff I plan to still continue in my business, however this is to advise that if elected I shall give up my Tavern business early in December, and be ready to take over the office at the appointed time, and shall devote my entire time to the sheriff's duties.

Too, I have a party in view whom I shall appoint as undersheriff, and he with his family will move into the jail residence, so that the buildings and grounds will be cared for in the proper manner.

Thanking you and earnestly soliciting your support in the Election Nov. 8, I am,

Respectfully,
Pd. Adv. Orel "Blackie" Levan.

The Name Neville

The name Neville is the Latin form of the Anglo-Saxon Newton and has the same meaning, "from the new town," a residence name.

Should Welcome C. of C. Soliciting Committees.

The membership drive of the Grayling Chamber of Commerce was placed in action last Monday, October 31st, under fifteen canvassers. The week of October 31st to November 7th, it is hoped, will conclude the campaign of the Chamber of Commerce, so it remains for a good reception on the part of the merchants and citizens to respond to the task required of the solicitor, who is willingly giving his time to assure a thorough canvass, which should assure a successful drive. A. J. Joseph is chairman of the membership committee and is in charge of this campaign.

Every dollar contributed to the Chamber of Commerce is an investment in the welfare of the

community. It enables Grayling to compete with the organized efforts of our neighboring cities, which are strongly seeking the same business and interests which Grayling needs.

Remember, the solicitor who calls on you is doing an important but an undesirable task in collecting Chamber of Commerce funds. If he can give his time and effort for the movement, it seems a small request to provide him a hearty response to the Chamber of Commerce membership drive. Should the solicitor overlook calling on you, kindly mail your check for a Chamber of Commerce membership to Alfred Hanson, Treasurer, or hand it to him in person and help the cause along.

Grangers Frolic At Hay Loft

Dear Mr. Grange Master:

When the young folks came in and said come on we are all going to the Hay Loft and you have to go with us. Well, I put on my hat and grabbed my coat and we went, thinking how nice it was of the George Skingleys' to let the Grange have another party in their Hay Loft. The first one I saw tho as we came in was a stranger, none other than an old black mammy. Oh, oh, I thought, must be pancakes for refreshments for it was in the kitchen I saw her and she looked as tho she had stepped right off the picture on the pancake flour sack.

Then upstairs I saw so many queer folks and having been rather particular to know only the best people and thinking the Grangers were too, it was rather shocking to see them associating with such strange people. When my own daughter started off with a "convict" I nearly fainted, but didn't have time to because there were two lovely brides, lace veils and everything. One had a most gorgeous string of pearls, remarkably resembling real Christmas tinsel, and curls of the newest blond-woody kind. Looked and looked for the bridegrooms but don't know yet if they were Chinamen, dark gentlemen, tramps, or what they had. The tallest marched sedately around with a shorty with very scanty whiskers like, (I was going to say a walrus but don't want to hurt anyone's feelings so won't say it). Have my doubts yet about him being much of a man. Where was Edna anyway? The other bride danced with a lady in yellow who might have been one of her bridesmaids.

Little Bo Peep was there with Little Boy Blue—golden curls and all. It is a long way from Roscommon and the wind had taken most of the curl out of the curls. Didn't know Roscommon was a Dutch settlement but a little Dutch maid from there wooden-shoed her way around the hall with several quite questionable characters. When that dark mammy went sashaying around with our quiet little Rose Parker I was having such a nice time being shocked but someone came in front of me and there was Carrah Corwin with the arms of a convict around her till it took

HAVE JOLLY HALLOWEEN PARTY

To celebrate Halloween, young people of the Danish-Lutheran church entertained a number of friends at Danebod hall Thursday evening. Guests were to come in costume and masked, and Misses Ingeborg and Mildred Hanson had the most clever make-ups. Benny Jorgenson, who was one of those in charge of arrangements, was clad as a tramp and he acted the role to a "T".

Decorations were in keeping with Halloween with corn stalks, witches, goblins and ghosts much in evidence. Lunch with pumpkin pie as one of the good things to eat was served in the basement amid decorations of orange and black. During the lunch hour plans for a young people's society was discussed, and a committee of four volunteered to plan for another such social evening later on.

HANS PETERSEN HONORED ON BIRTHDAY

Genuine surprises are few, but Hans Petersen certainly had one Wednesday. During the day his children who live away began arriving and by afternoon they were all here, together with their wives or husbands and other members of their families. The occasion was Mr. Petersen's 82nd birthday and the thought of spending the day with him and having a family gathering in the evening was planned in celebration of the event.

Twenty-five sat down to the dinner party in his honor Wednesday evening at the Earl Dawson home. Centering the table was a huge birthday cake and at either end were candelabra holding blue tapers.

Mr. Petersen is hale and hearty and enjoying life to its fullest. He is Justice of Peace of Grayling township, which office he has held for several years. He takes an active part in civic affairs and enjoys a large circle of friends.

Those enjoying the festivities, besides Mr. and Mrs. Petersen, were Mr. and Mrs. Peter Peterson, Mr. and Mrs. William Pobur, Detroit; Mr. and Mrs. Andrew Larson, Caro; Mrs. James Olson, Mrs. Francis Long, Grand Blanc; Mrs. Cass Chamberlain, Oxford; Mrs. Clarence Claggett, Lenox, Mich.; Mr. and Mrs. Norman Dawson and little son, Kalkaska; Victor Petersen and family and the Earl Dawson family, Grayling.

Mr. Petersen is wished many more such happy anniversaries.

Annual Red Cross Roll Call for 1938

All of us have been watching the tide of discontent that has swept over many parts of the world during the past year. Threats and possibilities of actual war have been alarming, at times, and even today none of us would be greatly surprised as any turn for the worst of the so-called ticklish situations might produce. But the threats and counter threats of war referred to are far removed from our community. Isolated America, we love to think stands squarely for peace. The business of recovering from that strange period called "depression" has been a problem large enough for us to worry about.

However, there has been a conflict going on in this productive country of ours—a conflict that, without stretching the truth, could be called a battle to the end.

But the cause has not been territorial gain, a fight for political beliefs, or a struggle for masterships over neighbors. It has been a battle for better living conditions and general

health, a fight for the prevention of deaths and permanent injuries on highways, in homes and on farms, and a great united effort to conquer suffering and distress.

A few years ago the Red Cross entered the fight against that dread disease—pellagra. Was it effective? The victory speaks for itself. Writing in "The Country

Gentleman" this summer, Paul de Kruif, eminent writer on scientific subjects, points out that due to the efforts of the Red Cross, death from pellagra has dropped fifty percent. Was it a worthwhile battle? The answer is obvious.

The fight against death and permanent injuries on the highways has been made thru the medium and establishment of 1600 first aid stations with trained workers, planted at strategic points along the highway.

This campaign is working. The message is reaching an increasing number of persons annually. Willing volunteers are received in the working ranks annually.

The Public Nurse program is being carried further and further into isolated districts and homes where no other nursing is available.

Battles on many fronts; many enemies to overcome.

Help the Red Cross to carry on. Join the 1938 twenty-first Roll Call of the "Great American Red Cross."

IT STRIKES US—

That amendment No. 1 is one that any voter should understand. We wonder if the people are ready for the change of 2-year terms for county officers to 4-year terms. Do your own deciding. There is a lot of merit in amendment No. 2, but we hesitate to delegate any more power of the people to centralized control. We consider that centralized government is dangerous for a democratic government. It heads away from the principles of government of the people, by the people and for the people. The answer is for the voters to determine. Amendment No. 3 is one that we go sled length in endorsing. This should pass with a big majority. VOTE YES. And finally No. 4. PLEASE VOTE NO. Out of its defeat, it may be assured, there will come an act by the legislature that will be more fair to the counties and the people at home. Election is next Tuesday. Are you ready for the ballot?

(Continued from front page) my breath quite away and I had to start in being shocked all over again.

The Devil himself was all over the floor. Folks tried not to show it but they must have been scared, not knowing who he was after.

About the prettiest was the King's jester, bell and all. It being such hard work making other people laugh all the time it was not surprising that his face was quite lined and his hair no longer jet black. Pearl went whizzing by with a Chinaman and I thought, my, when Neil hears of that, but here he comes by with a tall, very black lady. Such goings on!

Slowly up the stairs like a stovepipe, which was the top of his hat, came a head. I was just going to yell the de-mings are coming, but there was only one so I thought I'd better be brave but was awfully worried when his tummy, so Wimpy-like, came in view, and I remembered they were supposed to have hamburgers later on for refreshments.

A great yellow jack-o-lantern stopped right in front of me and a hand dangled so near I thought I'd better shake hands, if that was what it wanted, but ghosts spooks and witches had nothing on those hands. They were empty! But still they collected a half dollar after a while. When that convict and a real gypsy woman came by I took the only bill I had with me and pinned it inside my coat with a safety pin. Thinking of that bill I couldn't even have them tell my fortune.

One poor fellow must have wanted to come awfully bad cause his clothes were too, too patched and patched and gone. It was too bad his wife or his neighbor or himself or somebody couldn't have found patches of nearer matching colors, especially one. But then if his pants hadn't of been partly gone the real beauty of his gorgeous striped hose would have been lost on the crowd. Even his shoes shied away from covering such beautiful stripes that matched so well the flowery carnation he wore. He must have seen better days for he walked so straight and tall, even when Middle pulled him across the floor by his toe. Someone gave him a half dollar later and if he is real careful and saving and comes to the next party that I heard him asking for he might get another half dollar and maybe sometime have enough to buy some even nicer socks.

Hollywood sent a cowboy and there was a real news lady who must be good for her eyes were big enough to see all that was going on. Several candidates were quite quiet—maybe 'cause their wives were along. You should have been there to keep an eye on your Grangers. I am usually quite choosy about where I go but if my neighbors and their neighbors and all the other folks are going to the next party, well, we will just have to go along too. There will be a next time, won't there? We and everybody hope so, and soon too!

By YIMZLEYAM

Grange dinner will be promptly at twelve, Saturday.

All members please be there and on time. There will be initiation and much business, and if we are ALL on time our work can be done so much better. PLEASE.

St. Helena Discovery of

A Portuguese Navigator

St. Helena was discovered by the Portuguese navigator Joao de Nova on a voyage home from India. He sighted it on the feast day of St. Helena, mother of the Roman Emperor Constantine, and named it for her. That was in May, 1502. The Portuguese made no effort at colonization. Yet there was one involuntary Portuguese colonist, a sort of Robinson Crusoe, relates Frederick J. Haskin in the Washington Star.

A Portuguese soldier, Fernando Lopez, deserted at Goa, renounced Christianity and joined the Paynim. He was surrendered to the Portuguese by the Indians on condition that he be spared. Albuquerque did spare his life, but he did not think the terms of the surrender would be violated if he cut off his right hand, his ears, his nose, and the thumb of his left hand. Then he took him aboard for the homeward voyage and marooned him on St. Helena, which was totally uninhabited. This was in 1513.

Lopez dug himself a cave with what remained of his left hand and managed to live. The tale became known and ships stopping for water and wood for their galleys would leave food for him. He never appeared himself because, having been a proud soldier, he was ashamed of his deformities. When ships returned they found the food had always been taken and they continued the practice. At length he showed himself in his old age and asked to be taken home so he could make pilgrimage to Rome and be forgiven his sins by the Holy Father himself. By then he had become a figure of note, and his request was granted. But, shriven, he elected to return, alone, to his island.

In the Editor's Mail

You and I were given a gift; the privilege of self government. This freedom was gained through the loss of many lives, and the suffering of many hardships. The generations before us have held this freedom sacred and passed it on to us. It may be because we inherited this freedom that we treat it with so little consideration.

From time to time we are asked to delegate some of our power of self government to certain individuals or small groups of people; their reasons usually are economy, or just that they can do it so much better than we can. We have at times amended our Constitution with some very sad

results. We have at times empowered individuals with more power than is good for them or for us. I do not wish to imply that all Amendments are wrong; some have real merit and are progressive without loss of liberty. They all should be studied thoroughly.

I cannot bring myself to believe that we must give up any of our privileges of self government for economic security.

Most of our problems of today can be and should be solved by our local government, with the help if necessary of our State or Federal Government. We cannot expect to dump all of our problems into the laps of either the State or Federal Government without also losing our liberty.

With our birthright of freedom we also inherited its responsibilities; we must not shirk

them. We cannot hope to get something for nothing, ere we leave our children to welter in a sea of debt and slavery.

Clarence A. (Tony) Gross.

HONORED WITH FAREWELL PARTY

Mrs. Jack Clark and Mrs. Minnie Hartley were hostesses at a farewell shower given Thursday evening at the home of the latter, in honor of Mrs. Warren Stephan, who will leave for Detroit to make her home. Mrs. Stephan received many pretty and useful gifts for her home.

Re-elect

FRANK P. BUZA

To the State Legislature
Democratic Ticket
November 8th

What a Republican Editor has to say about
FRANK P. BUZA

HAL WHITELEY in "Round and About" Column Rogers City Advance, April 14, 1938:

"Looking over the political landscape we find Presque Isle District this year having at least two very prominent candidates in the political field, one on the Republican, and one on the Democratic ticket."

"It may seem strange to some for us to comment favorably on the candidacy of one not of our own political party. We hope we are big enough to give credit where credit is due, regardless of party affiliations. We have always felt that a candidate of character and ability is entitled to the support of his home community, regardless of his political affiliation, the more so when he is non-partisan in those things which vitally affect us."

"We think Rep. Frank Buza has been an unusually good representative. Looking over his legislative record we find him conservative. He has been cooperative with all parts of his district, if we are to believe the individuals with whom we have come in contact from the other counties."

Labor Endorses Him

MICHIGAN FEDERATION OF LABOR

The Michigan Federation of Labor has always found Rep. Frank Buza friendly to legislation in the interest of the common people of the State of Michigan.

He was active in the 1937 session of the Legislature in assisting Labor representatives in their efforts to enact laws to protect the workers.

The necessity of legislation to protect the workers in the struggle for an American standard of living is greater than ever, and we need the services of progressive legislators who have a sympathetic understanding of workers' problems.

Rep. Frank Buza has demonstrated, by his legislative activities, that he has an understanding of the problems of the workers and should be returned in the interests of the common people of this State.

John Reid, Secretary-Treasurer.

IS MICHIGAN HEADED for BANKRUPTCY?

LET'S CONSIDER THE FACTS

(1) State payrolls increased more than \$9,000,000 in 18 months—the greatest boost of tax-supported wages in Michigan history. Lack of building space at Lansing for Murphy's job army has even forced several agencies to move to Detroit.

(2) Steadily mounting deficit in the state treasury. On January 1, 1937, the treasury had a cash balance of \$8,775,000. On June 30, 1938—18 months later, the officially admitted deficit was \$8,741,487—making a red ink total on June 30, of \$17,000,000 UPWARD. And this does not include, in any way, the millions appropriated by the legislature at the special session in August for welfare needs. TODAY the Murphy deficit is somewhere between \$20,000,000 and \$30,000,000, and mounting every day!

What are YOU going to do about it? Old Age pensions have been reduced because tax money has been squandered! Wouldn't it be better for the unemployed to have adequate state funds for their needs, and what is more important, honest-to-goodness jobs in industry and business?

Restore Sound Government to Michigan! Restore business confidence by the American way! Michigan workers are not satisfied with only the Dole—they are entitled to real jobs.

Feeling SORRY Won't Bring a DEAD Child BACK to Life...

Have you the courage to read this ad . . . or do you shudder at the gruesome thought suggested? No . . . we're not going to give you cold, stark, unfeeling statistics on how many children were killed in the State of Michigan last year. You know there was a child killed because a motorist was careless. And the man who killed that child says he would give his life to bring her back to life. He is a broken man today because this tragedy did not end with death to the child. It has cut deep . . . it has hurt and wrought havoc in the lives of many.

Are you a careful driver? Do you know the traffic rules and regulations? Above all . . . do you observe them . . . not just most of the time but ALWAYS? One slip can make you sorry for the rest of your life . . . can shatter your confidence . . . can bring grief and unhealing wounds to others. Please . . . please drive carefully!

The Fords Tell Their Plans for 1939

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

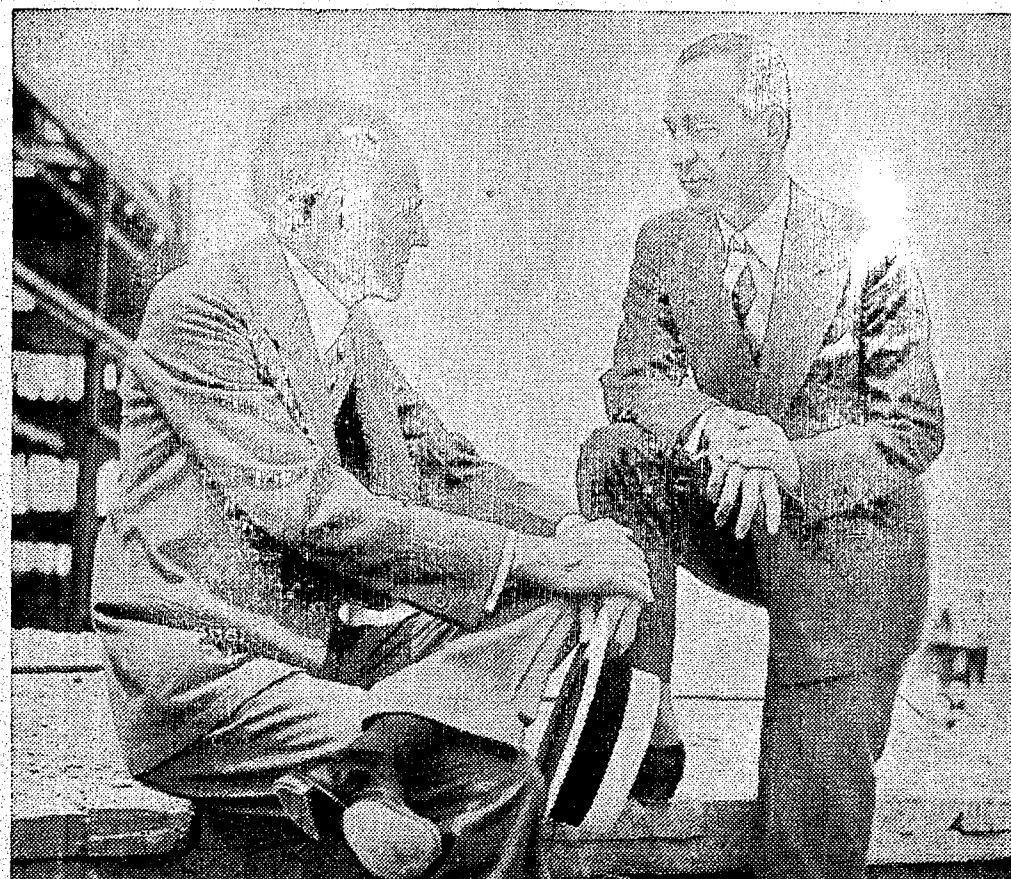

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements . . . a new tool and die plant that will help us cut the cost of dies . . . and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs.

We simply will not build anything inferior.

NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

THE NEW CARS

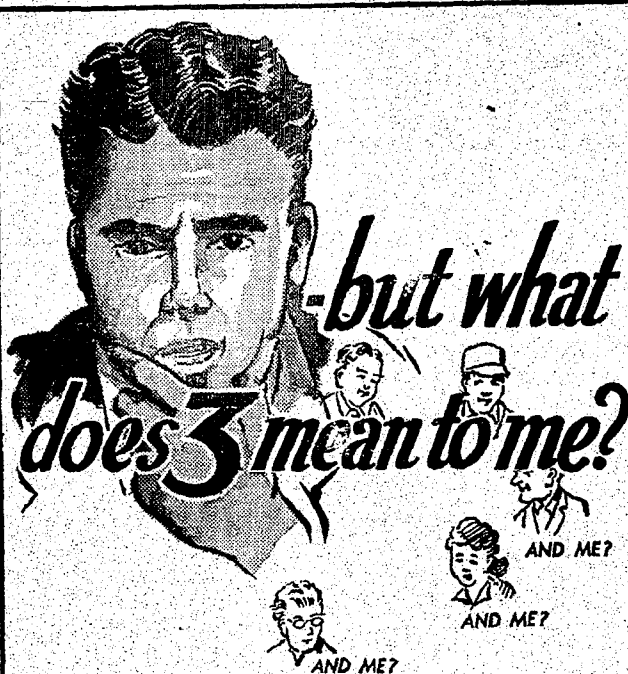

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

FORD MOTOR COMPANY, Dearborn, Michigan

GOOD ROADS mean everything to all of us. Michigan's top-ranking automotive industry depends upon good roads. Our second most important industry—the tourist business—could not exist without them. Agriculture thrives only when farm products can be rushed to markets over good roads. Business prospers as these basic industries prosper.

On election day you will vote on Amendment No. 3, the Good Roads Amendment. Here's what a "yes" vote means to you: As a wage earner "yes" means more jobs; as a farmer "yes" means good farm-to-market roads; as a business man "yes" means more business, and as a taxpayer "yes" means a brake on your property taxes. To your family, Amendment 3 opens up new fields of safe and healthful recreation.

Derivation of Name Clara

The name "Clara" is a form of "Clare," a name probably derived from St. Clare, a popular saint in England, a friend of St. Francis, and foundress of the Roman Catholic order of St. Clare, the nuns of which are often called "Poor Clares." The name appears in many medieval calendars. It is probably derived from the Latin "clarus," (bright star).

Red Cross Volunteers Assist War Veterans

Red Cross workers in chapters, in hospitals and on posts of the Army, Navy, Coast Guard, and Marine Corps, assisted 122,355 active service men or veterans or their families during the past 12 months.

Red Cross service to these men included such personal help as letter-writing, shopping and recreational leadership, but it also included financial assistance to their dependents, help in locating missing members of their families, and assistance in filing necessary applications for pensions, disability pay, hospitalization, or for discharge from active service because of home needs.

The average number of men assisted by Red Cross workers each month was 18,790, according to a recent report.

**WITHOUT FREE PRESS WHO
LOSES?**

Some people are of the opinion that free press is intended only for the pleasure of publishers of newspapers. Nothing can be further from the truth. It is the public who loses. When the newspapers are deprived from free expression and the publication of uncensored news, the people are not getting the truth and are usually offered biased propaganda instead.

Grove Patterson, editor of the Toledo (Ohio) Blade, says that a free press is necessary if human progress were to be achieved. "It is the only thing," he said, "that will keep a man or group of men from stealing the government, that will keep dictatorship from working."

Mr. Patterson, a former president of the American Society of Newspaper Editors, spoke before the University of Michigan Press club at Ann Arbor last Friday evening.

Reputable newspapers publish the news without prejudice or bias or nationalist or racial expression. Free press and free speech are priceless heritages of the American people. We have only to look about us to know that democracies are fast crumbling. Can this happen to America? Approaching events cast their shadows before. Let's be on guard to protect the people against any centralization of government that may tend toward the censorship of a press and free speech as we have it today.

SCHOOL NEWS

With an eye on the calendar Mr. Cornell called the first basketball drills this week, and a good sized squad answered. The calendar reveals that the Green and White of Grayling will open the season on December 2 at Alpena and in the meantime a lot of work is going to be in order. The early drills will be fundamental in nature, designed to break the squad in gradually, and at the same time to be ready for the active campaigns of the season.

Just what the team will be able to do is a question. More height seems to be a possibility, but it is going to be necessary to fill the gaps left when five of the first squad received their diplomas last June. These include Dewey Coutts, Keith Bowen, John Henry Peterson, Leslie Hunter and Lewis Rutkowski. Filling the gaps this created is not an easy task. Of the first squad the following men return: Arnold Tibbetts, Howard Snook, Paul Lovely, James Petersen, Jack Hull, William Moshier, and John Deckrow. There are also other players available who seem sure to be heard from before the season comes to an end next March.

Dr. Ardis of the Couzens Foundation is in Grayling ready to spend eight weeks in his dental clinic for children of Crawford county.

Mr. Roberts is starting work on the Junior Play. The cast has been tentatively chosen and the play has been selected. More will be heard of this activity later on.

The trip to Mt. Pleasant for members of the Boy Scouts and the high school band was a splendid event for upwards of seventy-five students. Mr. Rowland secured the tickets, given by Central State free, and local citizens provided the cars. Mr. Rowland was given the privilege of directing Central's snappy band in one of its between-halves numbers. And Central's power-house football team rode over St. Mary's of Pontiac 38-0. Central is the leading Michigan college team in the matter of scoring points. They've counted 250 in six games.

The annual school Halloween party was held last Saturday night at the school, with certainly not less than 300 in attendance. A varied and interesting program was run off that lasted for two and a half hours, at the end of which time the youthful audience was pretty well run down.

The festivities started with a one reel "Our Gang" comedy showing the young adventurers caught in a house of horror designed for an amusement park. After that came a dozen amateur acts, for which prizes were awarded to Verne Cunningham and sister Gloria, first. Barbara Borchers, and Patsy Heric, second; and Leonard Cunningham third. A lengthy costume parade

followed, for which four prizes were given. LeRoy Matthews, as Black Lightning, took top honors, followed by Beatrice Papendick as a bride. Junior Woods as a lady of color, Ruth Decker as a witch, and Junior Palmer as a pumpkin. Many clever costumes were seen in the long file over the stage. Contests in cracker eating and apple eating followed. Each of five grades had previously selected a group of entries, and grade champions were selected. After that a grand champion was determined. The finalists in the cracker eating were Rose Bishaw, Vern Clifford, Billy Remer, Ted McEvers, James Kolka and Alfrid Hanson. Out of this group Billy Remer was the ultimate winner, being able to whistle first. Second place went to Ted McEvers. The apples had to be eaten when strung up in the air, without the use of the hands. The finalists were Vere Matthews, LeRoy Matthews, Robert Papendick, Sandy Thompson, Hazen Hatfield, and Robert Clark. Hazen Hatfield copped the award in a close race.

The prizes were donated by various business concerns in town.

In reviewing the breakfast unit the 9th Grade Home Economics girls had a "Professor Quiz" contest Monday and Tuesday afternoons. Jerrine Mathews was Professor Quiz and Gloria Mortenson was scorekeeper. The questions were prepared by the members of the class. The winners were Joan Montour, June Doroh, and Ruth Kernosky. In second place was Jerrine Mathews.

The girls in the Home Economics classes have been making their own health records. They have weighed and measured each other and tested their hearing and vision. These tests are to enable them to understand what is being done in the school for improvement of their health. Three girls are chosen each week from the Home Economics classes as being the best groomed. The ones chosen for last week were:

Lansing—It's practically all over except for the shouting. Which is to say that political observers here figure that the average Michigan voter has made up his or her mind about preferred nominees for public office and that the hubbub of excitement between now and Nov. 8 won't change many votes.

Heavy registrations throughout the state point to an unusual interest in the ballot outcome. This, in itself, is a healthy sign for democratic government. Watch for a record vote next week.

Party leaders this week seek to maintain and augment enthusiasm among the organization workers, the men and women whose job it will be to get out the citizens next Tuesday. All current political activity and ballyhoo are planned more to get out a big vote than to influence the voters.

Amendments
Rather belatedly has come public interest in the amendments to the state constitution.

Three of these were initiated by petition, while the fourth is a referendum on a legislative act. Because all amendments had to meet the gauntlet of petitions, it is reasonable to assume that this democratic system, of initiative and referendum makes for popular government. Yet the fact that there are FOUR questions confronting each voter at the polls is somewhat of a handicap. Like the long ballot, the larger number of issues tends to confuse the average citizen, and therein lies a danger of general indifference and apathy.

The initiative amendments propose four-year terms for county officers, appointment of supreme court justices by the governor upon recommendation of a non-partisan commission, and prohibit diversion of gasoline and vehicle license tax revenue. The referendum is on the state welfare reorganization act adopted by the 1937 legislature.

As the uninformed citizen tends to vote "no," thus "playing safe" on issues about which he knows nothing, it is unlikely that all amendments will be approved next Tuesday. At this moment it seems probable that two will pass, two will fail.

216 Millions
From the office of the budget director comes a 20-page booklet, "Finances of the State Government," that contains interesting statistics about how our money has been spent.

Yet the spending of \$216,063,490 by the state government during the past fiscal year ending last June 30, 1938, is news. This sum represents an increase of nearly \$14,000,000 of which over \$4,250,000 was an increase in taxes and approximately \$4,330,000 in the lump sum property tax also state inheritance tax. The debt brought \$1,000,000 more revenue.

The second source of increased revenue was due to a rise in income from liquor sale profits, licenses, etc., from about \$11,500,000 to \$22,750,000, much of which came about from a reduction of liquor stocks on hand.

Local Governments
In the maze of figures is one apparent trend: local governments are getting more and more aid from the state treasury.

A total of \$96,279,000 was collected by the state and turned over to local governments—42 millions for schools, 5 millions for highways, 21 millions for social welfare (including workmen's compensation payments), nearly 2 millions for health and hospital services, nearly \$100,000 for conservation and agricultural work, and nearly \$5,000,000 general aid.

Where did the 212 millions come from?
Here is the budget director's accounting:

Sales tax—52 millions.
Gasoline tax—28 millions.
Auto weight tax—18 millions.
Specific taxes (inheritance, insurance, etc.)—21 millions.
Corporation tax—5 millions.
Delinquent property—4 millions.

Other taxes—2 millions.
Liquor control sales not apportioned to purchases—22 millions.
Liquor sale receipts apportioned to liquor purchases—25 millions.

State licenses, fees—11 millions.
Federal aid—17 millions.
Interest, penalties—2 millions.
Enterprises other than liquor control—5 millions.
Non-revenue receipts—2 millions.

All of which means that state government is BIG BUSINESS. The above figures prove the point!

Can Taxes Be Lowered?

How to satisfy the public's appetite for more and more governmental services and benefits and at the same time avoid increased taxes will be one of the legislators' problems in 1939.

Indirect, or "hidden" taxes, are paid by every citizen in Michigan often in the form of increased cost of living. If the public insists upon state benefits, it must be ready to pay the bill.
